

## Call For Vendors.....

***“The Road to Sustainability II Conference:  
Implementing Sustainable Strategies”***

Coming to Community College of Beaver County on  
September 23<sup>rd</sup>.

In October of 2009, CCBC working in partnership with Sustainable Pittsburgh held the first *Road to Sustainability* conference in Western Pennsylvania. This event was geared toward introducing the concept of sustainability to business organizations. This year the conference will focus on providing information to businesses and organizations on what they will need to do to implement sustainable strategies as well as what it will take to get the current workforce trained to do so. The Conference presenters will give companies first-hand information about “how to” implement a plan, what products to use, and how to capture their return on investment for going green. The day will include speakers who are regional and national experts in addition to various workshops presented throughout the day on topics such as “Demystifying the Energy Audit”, “Grants 101,” “Act 129 Opportunities,” just to name a few. ***The Road to Sustainability II: Implementing Sustainable Strategies*** will provide an opportunity for companies to network with a motivated group of businesses and community leaders dedicated to growing the region’s economy based on innovative, sustainable strategies.
